The enclosed document contains a list of students who have been awarded scholarships over the past five years. The list has been downloaded from the National Scholarship Portal 2.0.

The scholarship amount is provided to students through direct benefit transfer into their accounts. To apply for the scholarship, students need to fill out forms on the National Scholarship Portal (NSP). In addition to the online approval by the college, students are required to submit a hardcopy of the application form along with supporting documents.
